# Dynamic Web Development Report

## Week I

### What is the project about?

- This system is about **car rental**, hire **car**, or **car hire agency** is a system that rents automobiles for short periods of time, generally ranging from a few hours to a few weeks. So, people can rent car from this system and get all the information to rent car from this website.

### Why we choose this topic?

- **We Choose this topic for 3 main reason:**
  - The system allows unlimited vendors to publish their fleet and location wherever they operate. **Car Rental System** can be used by many types of clients, from small online websites up to large-scale tour operations.
  - We can add any other functionality to the **Car Rental System** upon request. Easy car bookings. Extra services
  - The car rental software will enable you to easily manage online reservations, automatically tracking available vehicles, and setting up flexible rates for a different season

### What is our goal of making this happen?

#### ➤ **Our Goal:**

- The main **objective** of the **Car Rental System** is to manage the details of **Car**, Payment, Customer, Supplier, Insurance. ... The **purpose** of the project is to build an application program to reduce the manual work for managing the **Car**, Payment, Booking, Customer. It tracks all the details about the Customer, supplier, Insurance.

#### ➤ **Great ideas why should rent a car?**

- ✓ Rent an automatic car and discover driving
- ✓ Rent a hybrid car and save on parking
- ✓ Rent a car for each situation
  - Business meeting
  - Travelling with friends
  - Travelling with children

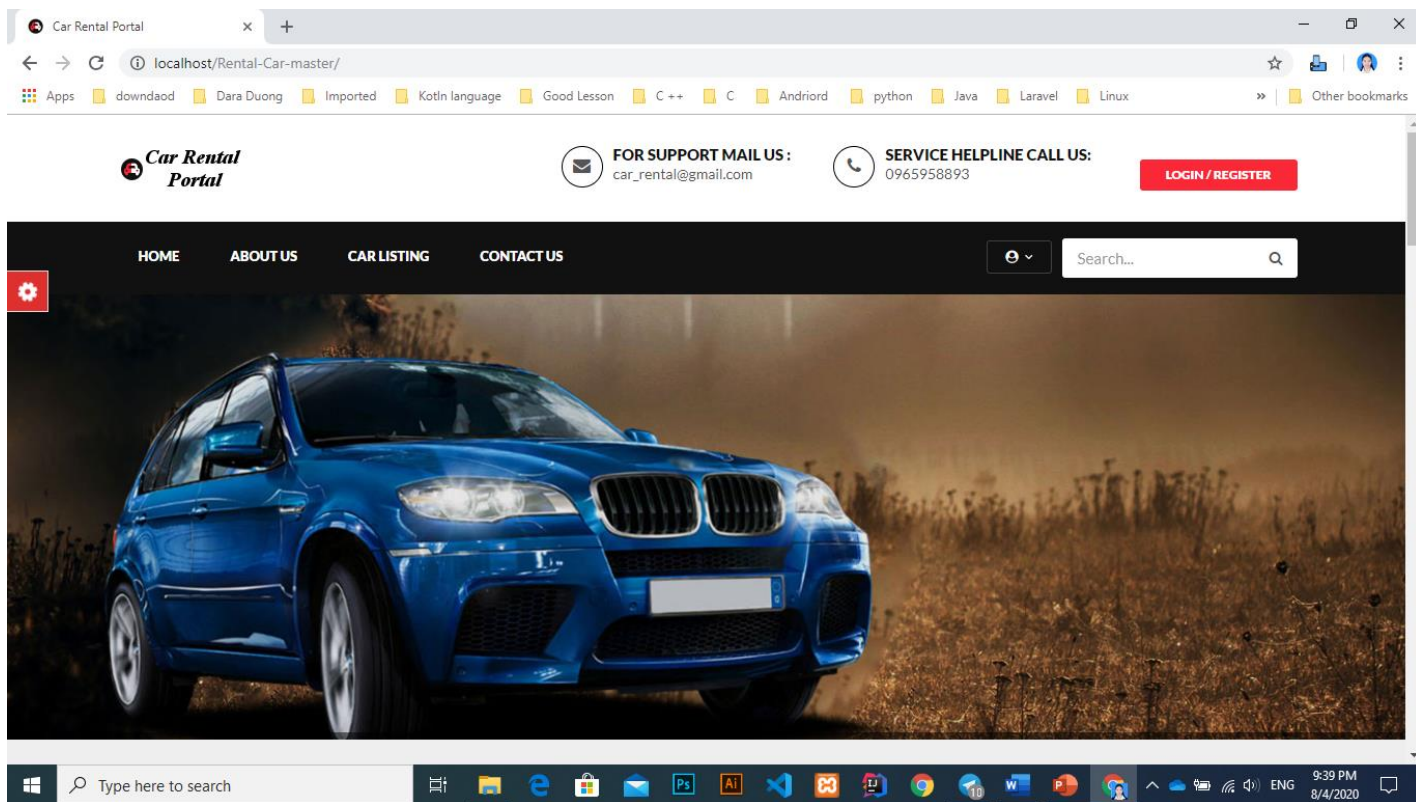

- Rent a car, and don't look like a tourist
  - I don't want to pay for Sat-Nav roaming
  - I don't like people know I'm a tourist
  - It's very easy to find a car rental office

## Week II

We updated our static web to become a dynamic web by using PHP connect with MYSQL and update more standard interface.

## Project website Interface

# Find the Best CarForYou

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text.

## **Conclusion**

The system has built by successfully both frontend and backend, and each team members have work hard together to finish this project. Finally, we got one website to make customer get easier to find the car for rent and also find more information about car for rent. We hope this website will help them to solve their problem in daily life.
